Project Name	Health Ai-Intelligent Assistant using IBM Granite
Maximum Marks	4 Marks

The purpose of **HealthAI** is to develop a smart, accessible, and reliable AI-powered healthcare assistant that empowers users to:

Make Informed Health Decisions:

Provide users with accurate, personalized medical insights to help them understand symptoms, evaluate possible conditions, and decide on appropriate next steps.

Bridge the Healthcare Accessibility Gap:

Offer basic yet valuable medical support to individuals who may not have immediate access to a doctor — such as those in remote areas or with mobility limitations.
